607 EXPRESS

NOW AN EVEN BETTER SERVICE

We've been working with London Transport and the local boroughs to upgrade bus travel to First Class standard. Travel with us and benefit from new, bigger buses, a more frequent service and a speedier journey.

BIGGER BETTER BUSES FOR THE 607

We're replacing the single-deck buses on the 607 with brand new double-deckers. Each bus has 70 comfortable individual seats and extra features like tinted windows and a public address system. The vehicles have a special compartment for luggage and pushchairs. It's all designed to make bus travel more pleasant and more relaxing.

ENVIRONMENTALLY FRIENDLY

The new buses will be better for the environment too. They are fitted with the very latest 'green' engines which meet the most stringent European standards for pollution control.

607 TO RUN MORE OFTEN

We're making your journey faster by running the 607 more often, every 12 minutes instead of every 15 minutes. The service will run later in the evenings on Mondays to Saturdays with the last bus from Shepherd's Bush at 8pm. There will also be an extra 607 bus stop at Uxbridge Road, Shepherd's Bush, Queen Adelaide. Buses stop only at places shown on the diagram above.

ROUTE 207

Route 207 will continue to provide an all-stops service between Uxbridge and Shepherds Bush running every day of the week from 5am in the morning to after 11pm at night. The 207 will continue to run in two overlapping sections for most of the day: Uxbridge Station to Acton, Market Place and Hayes By-Pass to Shepherd's Bush. There will be minor changes to the daytime service designed to give more regular intervals between buses.

FROM 207 TO N207 - A 24 HOUR SERVICE

When the 207 stops the N207 begins, giving a bus service 24 hours a day. The N207 will replace the N89 and will run every night from Trafalgar Square via Notting Hill Gate, Shepherd's Bush, Acton, Ealing, Hanwell and Southall to Uxbridge. This leaflet includes a brief summary of the service; for further details ring 0171-222 1234 or ask for a mini-timetable, available shortly.

FURTHER INFORMATION

For journey planning advice, times and fares for all bus and rail travel in London, ring London Transport Travel Information 0171 222 1234 anytime, day or night.

**Routes 207, N207 and 607 are operated
by UXBRIDGE BUSES.**

UXBRIDGE ROAD GREEN ROUTE PRIORITY SCHEME

ROADS FIT FOR BUSES

Buses can't run reliably if they are stuck in traffic. Over the past four years we've been working with the local boroughs to make things better for bus travellers. As you travel along the Uxbridge Road you'll find special traffic measures to get buses through first. Lanes reserved for buses will help to speed up your journey and at busy junctions buses get priority. We've carried out surveys which show these measures work: on the Uxbridge Road buses are now getting to their destinations faster.

COUNTDOWN PASSENGER INFORMATION

Most major bus stops on the Uxbridge Road have real-time electronic Countdown indicators. These show the times of the next three buses and their destinations. You can make your journey with confidence.

FARES AND PASSES

80p is the minimum fare on the 607 EXPRESS and after 9.30am on Monday to Friday and all day Saturday, higher fares are also reduced to 80p. Route 207 also has a 50p short hop fare as it serves all stops. On the N207 Night Bus fares apply and One Day Bus Passes or Travelcards are not valid for travel on most journeys.
